

**Workplace Safety
Innovation Award**

MainPower Workplace Safety Innovation Award

Origins:

- 2010 Joined EEA/Orange Umbrella Safety Climate Project
- Seismic events led to renewed commitment for a 'Safety first' working environment
- Safety Innovation Award borne out of the review

mainpower

in·no·va·tion

noun

A new, forward-thinking and original idea that would create a safer, healthier working environment when implemented.

mainpower

How it works

- Everyone within the business is encouraged to submit their ideas
- Judging panel consists of internally appointed H&S reps, as well as independent external party.
- The winner receives \$1,000 and a trophy.
- Winning innovations are profiled externally to our customers and community.

Certificate and perpetual trophy.

Reward and Recognition

The MainPower Workplace Safety Innovation Award showcased in staff newsletter and newspaper advertorial

Currently:

- 61 submissions since 2011
- Continued high standard
- Recently started to assess and implement innovations as they are submitted
- Award structure continues to evolve and innovations are now assessed and implemented (where appropriate) real time

mainpower
