

## 'Arc Flash'

Graeme Johnson  
Quality & Compliance Manager, Delta

### EEA Guide to the Management of Arc Flash Hazards

**Issued October 2011**

This Guide:

- Sets a policy for arc flash hazard assessment including a timeframe.
- Provides a basic description of the details surrounding arc flash and options for managing the associated risk of significant harm.
- Identifies the necessity for an arc flash prevention programme and the wearing of appropriate PPE.
- Explains the background to quoted Standards and how they apply

***A programme for assessment of all assets shall be in place by no later than 30/6/2012, with assessments completed by no later than 31/12/2013***

**For discussion:**

- Is there a need for an industry guide?
- If so, what should it cover?
- How prescriptive should it be?
- Other comments?
