

SM-EI Workshops 2017 Work at Height - Review

Monday 13th to Friday 17th March 2017

Harvey O'Sullivan

SM-EI 2015: 1.606 WORKING AT HEIGHT

- Attachment at all times has been electricity industry policy and practice since **March 2016**.
- Workshops in March 2016 discussed progress with attachment solutions
- PFAS Guide and Poles Guide were published in August 2016 with current requirements and latest guidance on attachment solutions.
 - Poles Guide specifically addressed work on top of top cross-arm

Work at Height and Attachment at All Times

Feedback and comment
