

EEA Updates 1

HEALTH AND SAFETY WORKSHOP – 10/11 OCTOBER 2018

Guide for Selection of Work Method for LV work.

- Background
- Consultation Draft – October 2018
- Criteria
 - Is unreasonable in all circumstances for the line to be de-energised?
 - Is it reasonable in all circumstances for the worker to be working on a live uninsulated conductor?
 - Are there limitations on the scope of work that can be undertaken - specifically safety justifications not to proceed?

QUESTIONS
