

COURSE SCHEDULE

All courses are offered four times a year, once a quarter, provided we reach a minimum number of enrolments (typically five). If the minimum number is not reached in a quarter, people who have enrolled will be automatically re-enrolled for the next quarter's course.

Exact dates will be confirmed once this number is reached.

While each course is currently listed as happening on the first of the month, this is to enable you to register your interest – it is not the definitive date of the course.

Schedule		Micro-Credential	Professional Certificate	Other
Q1	April	OLD-010 Principles OLD-020 Conductors OLD-030 Insulators OLD-060 Stays OLD-080 Practice Line Design Mathematics	PSD-010 Components PSD-030 Earthing	Safety in Design (online)
	May			
	June		PSD-020 Substations PSD-040 Protection
